## W. D. KELLY JR., 21, RITES AT HAZEL

Prominent Young Man Died Saturday Night of Pneumonia; Services Held Monday

Profound sorrow enveloped our town Saturday night when death came to W. D. Kelly, Jr., son of Mr. and Mrs. W. D. Kelly, Sr. The young man was just past 21 years of age.

He had been associated with his father in the lumber and undertaking business in Hazel since his boyhood and his work in this establishment had shown him to be a boy of remarkable business ability, high integrity, courteous and obliging. He was a graduate of Hazel High school and the Gup-ton-Jones School of Embalming of Nashville where he completed his course with high honors and was the youngest graduate embalmer in the state.

He was a steward in the M. E. church at this place, having been appointed to that place when only 14 years of age, being the youngest steward who ever served on this charge. He was a leader in social circles here and was known and admired not only in Hazel but in many adjoining towns. The social, religious, and business interests of Hazel had suffered a severe loss in his passing.

Funeral services were held at the Methodist church in Hazel Monday by the Rev. W. A. Baker, his pastor, and the Rev. W. P. Prichard of Murray, a life long friend of the Kelly family. Burial was at South Pleasant Grove.

Pallbearers, active: Rainey Erwin, William Jones, Cyril Nix, Sam Boyd Neely, Jesse Patterson and John Vickery. Honorary: H. O. Brandon, T. S. Herron, W. E. Dick, J. E. Littleton, O. B. Turn-bow, W. H. Miller, Aubrey Shrader, and Charley Denham.

He is survived by his parents, Mr. and Mrs. W. D. Kelly, and three sisters, Mrs. J. E. Underwood of Paducah, Mrs. Alga Frenon of Knoxville, and Mrs. D. C. Clanton of Hazel. One brother, Eliza Kelly, died about 20 years ago.

## Sign-up On For Cotton Growers

Applications of farmers who wish to sign cotton adjustment contracts will be received at the office of County Agent J. T. Cochran until March 30. The necessary forms have been received, and the rest of the month will be devoted to the sign-up.

Growers who signed contracts last year will be required to sign an amendment to their contract, due to the change in the amount of reduction. The contracts which they signed last year called for a reduction of 35 per cent this year. This has been changed to 25 to 35 per cent, for all growers of more than five acres.

Growers of five acres or less may reduce any number of whole acres up to 100 per cent, and receive rental payments on all acres reduced. Growers with less than an acre base cannot sign contracts. Growers who did not sign contracts last year may sign one this year, if they have a base of an acre or more.

## Kirksey Eagles Seek State Laurels; Win Regional; Place 4 on All-Star

All hail the champions, the Kirksey Eagles! Coach Burrell Darnell and his valiant young athletes left the middle of this week for Lexington where they will represent the 2nd Region in the state high school basketball tournament at the University of Kentucky. The high hopes and best wishes of all Calloway county, including their high school fans during the regular season and in the tournament, ride with the high-flying Eagles as they seek additional honors.

Only by the most desperate battle with the Sedalia Lions did the Eagles push their way to the finals of the 2nd Region in the state high school basketball tournament at the University of Kentucky. The Sedalia team was a hum-dinger from start to finish. The struggling warriors were knotted 4-4 at the first quarter and 12-12 at the half.

The Lions forged ahead in the three-quarters period and led 20-17 as the final, desperate 4th quarter was begun. They increased that lead to 3 points twice but the scrapping Eagles would not be denied. Copeland went in for the tired H. Bazzell, who was playing a magnificent game and was high point man and sank an all-important basket to tie the score at 20-20. The Eagles in the lead and the game ended with that huge one-point margin. The final minutes was played amidst a continuous uproar.

In the opening round, Kirksey easily defeated Loves 23-15. Sedalia toyed with Crofton for a soft 33-6 win; Fulton conquered Hopkinsville 25-15, and Beeleron slipped up on Murray High 26-17.

High School basketball was not up to their district play and fell behind in the last half. In the semi-finals, both battles were nip and tuck and decided by one-point. Fulton was due to triumph over Beeleron but the Blue Racers would not be denied and came through 17-16 by virtue of a last quarter rally. Fulton got off to an early lead, 7-2, but Beeleron offset that with 6 points to a pair in the 2nd quarter, held the Bulldogs even in the third and pulled the game out of the fire in the last spasm.

The Eagles placed four men on the all-regional selection of eight players, which was as follows: Forwards: H. Bazzell, Kirksey; Denham, Sedalia; and McCusick, Kirksey. Centers: Mathis, Sedalia and Washer, Kirksey. Guards: Edwards, Fulton; Cunningham, Kirksey; and Henderson, Beeleron.

Mr. Phillips, a resident of Princeton, was reared in this county. He is a nephew of County Judge E. P. Phillips.

The present incumbent, Senator T. O. Turner, has not definitely announced his intentions but it is believed by friends that he will again offer for the office.

Another candidate prominently mentioned around the district is Waylon Rayburn, present state representative for Calloway county.

## Subscriptions Pour in as Living Room Suite Drawing Approaches

As the drawing of the beautiful living room suite nears, subscriptions continue to pour into The Ledger & Times office, both renewal and new.

You haven't much time left in which to get your free tickets with subscription, either old or new. The plan is simplicity itself. With each dollar paid on subscription in Calloway county we give you a free ticket good for a chance on the beautiful living room suite to be given away Saturday afternoon, April 6.

The suite is a beautiful \$97.50 value and the winner may have choice of either tapestry or mohair covering. The suite is on display at E. S. Duguid & Son and is being viewed by scores daily. If you have not seen it, go in and look it over and see what a grand set of furniture it is. It would grace any living room in Calloway county.

Remember the ticket you get costs you nothing extra. We'll be frank enough to say that it may not be worth the paper it's printed on. On the other hand, it may be worth \$97.50. Who knows? You may not be the lucky one, but maybe you will be.

One thing is certain, unless you have a ticket in the box you have no chance to own this beautiful suite.

Don't wait any longer. Just three more weeks to come in and pay up or subscribe.

## State Anti-Chain Store Tax Invalid

WASHINGTON, March 11.—The Supreme Court ruled today in a 6 to 3 decision that Kentucky's gross sales tax law was invalid. The decision deprived the state Treasury of \$1,200,000 assessed under the act and impounded pending the outcome of the suit.

In delivering the court's opinion, Justice Roberts declared the act arbitrary, flimsy, and unequal before the act and therefore invalid. No relation was shown between gross sales and net income, he said, and added that a very wide divergence in net profits made the tax unequal between merchants.

Dr. Pupa's Death Recalls Death of N. B. Stubblefield Here Seven Years Ago

by L. J. Horton

The death on March 12 of Prof. Michael I. Pupa, inventor of telegraphic and telephonic appliances, recalled to citizens here the tragic death of another radio pioneer, Nathan B. Stubblefield, who died here in poverty seven years ago this month after giving to the world probably the first demonstration of a radio broadcasting and receiving set.

Professor Pupa, world famed inventor and Columbia University scholar, regarded the "Pupa coil" as his greatest achievement.

But even the "Pupa coil" was based in part on Stubblefield's invention and discovery, according to old records and data unearthed here today.

"The Electrical World," dated June 18, 1898, pictures a "New Form of Primary Battery" invented by Nathan Stubblefield. In this magazine Stubblefield later wrote in his own handwriting: "My first electrical or technical work. Patented in the United States, England, and Canada. This has contributed quite a lot to the world's sum of knowledge. It was the bed rock of all my wireless research in Radio of today that we have given to the world."

"Dr. Pupa's coil, used in transatlantic cable telephony, came in part from this," Nathan B. Stubblefield, Sept. 20, 1922." (Spelling is Stubblefield's).

On the Murray College campus is a marker dedicated to Nathan Stubblefield as the inventor of radio. The World's Almanac officially credits Stubblefield with this honor, as does "Famous First Facts," an authoritative reference book written by Joseph Nathan Kane. The exact date on which Stubblefield first was able to transmit the human voice without wires was possibly about 1892 in his own workshop. In the late nineties, he gave public demonstrations in Murray and later in 1902 in Washington, and Philadelphia.

Almo High School

The boys of this school had a class basketball tournament last week. The sophomores defeated the eighth graders Wednesday and the seniors defeated the juniors.

The seniors and sophomores played Friday, the seniors winning the class tournament.

The girls will have their chance this week. Wednesday the seniors play the juniors, the sophomore girls playing the winners Thursday.

The game was put off Friday because of the high water preventing one of the senior girls from being at school.

Friday ends the grade schools work for the year. The intermediate room under the supervision of Mr. Brown gave a chapel program last week and Mrs. Story's room will have charge of the program this week.

James Stroud, member of the sophomore class who has been ill of pneumonia is much improved at this writing. We are hoping he will soon be able to return to school.

The senior class is selling candy to pay for a panel picture to leave with the school. The class this year wishes to leave something to be remembered by after they have gone on. No other class has ever taken on a project similar to this one. The panel is sixteen by twenty inches containing an individual picture of each senior and the principal of Almo High.

The entire student body of Almo High School wishes to congratulate Kirskey on their basketball team, and we are wishing them much success in the state tournament at Lexington.

## COUNTY AGENT NOTES

The county agent has received notice that cotton and corn-hog applications for contracts must be signed by the 30th day of March. Applications received after this date will not be accepted. Most of the corn-hog applications are in but this will be of importance mostly to the cotton producers. Applications are available at the county agent's office. The closing date for signing tobacco contracts for 1935 is also March 30.

## Built Up Strength By Taking Cardui

Here's her own account of how Mrs. T. W. Hardin, of Green, S. C., was benefited by taking Cardui. "I suffered a great deal from weakness in my back and pains in my side and felt so miserable," she writes. "I read of Cardui and decided to try it. I felt better after I took my first bottle, so kept on taking it as I felt such a need of strength, and it helped me so much."

Tobacco producers who have sold their crop should return their allotment card to the county agent's office. 1934 marketing cards can not be certified until these cards are checked in the office.

Tobacco plant beds should be kept free of tobacco trash and stalks and should be well fertilized with commercial fertilizer. An application of nitrogen after plants are growing will speed the plants along. They should be hardened before transplanting. Keep clean beds and have plants free of disease. Another way to aid in disease control is to select a field for the tobacco crop that is rich in humus or decayed organic matter. There is nothing better than a thick growth of grass and weeds.

March is the time to start those baby chicks of the medium breeds to have them in production this fall when eggs are usually the best price. The light breeds should be started early in April. Those lighter breeds mature more rapidly than do the heavier breeds and if started too early are likely to start production in the fall early enough to go in to a partial molt before winter. This causes production to fall off and sometimes even stop.

## "HURRICANE" HEARS BAD NEWS

After Zenas Henry, played by James Barton, retires from the sea to live a life of ease, he allows city slicker to "take him" for his bank roll, house and all, in spite of Abbie's warning, played by Helen Westley in "CAPTAIN HURRICANE," now showing at the CAPITOL.

Through the aid of the C. C. C. Camp of Murray, Mr. W. F. Roberts and the county agent, a terracing demonstration was made on the farm of Mr. Roberts on February 28. It was a very disagreeable day but the International Harvester Company using their diesel tractor and an Adams terracing machine No. 1 did a very good job. The tractor was capable of 45 horsepower on the draw bar and was able to terrace a BSA drainage

area in one day at a cost of \$1.00 per acre. Many fields in this county should be terraced and seeded to clover and grass. This could be done on a large number of farms at a cost of about \$2.00 per acre. This machine could be obtained for this county if 2000 acres were signed up for terracing. Any one interested in terracing should go even yet out to the Roberts farm and see the results.

## 2000 Tons of Lime Necessary For Crasher in County

Those interested in liming their soil should give the county agent their name so he can get in touch with them when contracts are available. This will cost about 75c per ton at the quarry down here at Hymon. This is the only place in the county that lime can be crushed.

**Obituary**

On March 8, the Death Angel visited the home of Mr. and Mrs. J. E. Buchanan and claimed for its victim Mr. Buchanan.

He was stricken with flu February 22 and later developed pneumonia. He bore his sufferings with patience never murmuring. Although he craved to get well, he said he didn't fear the end.

Of course we in our weakness wonder why he was taken, I can hear the Savior say, "Well done, thy good and faithful servant, you have been faithful—over a few things I will make you ruler over many."

"Uncle" Joe was a loving father, a true, patient companion and a good neighbor. He possessed many wonderful traits and the entire community was saddened by his passing.

He leaves his widow Mrs. Thula Buchanan; three daughters, Mrs. Myrtle Shoemaker of New Providence, Mary and Bernice of Union City, Tenn.; two sons Taylor of this county and Carlton of Union City, and a number of relatives and friends to mourn his departure.

Funeral services were conducted by Bro. Charles Taylor. Burial was in the New Providence cemetery.

May God bless the bereaved family in my prayer.

## Two-Bale Cotton Growers Will Be Exempted from Bankhead Tax

Cotton growers, whose base production has been two bales or less, will be exempt this year from the operation of the Bankhead tax on that amount of cotton. C. A. Cobb, director of the Division of Cotton of the AAA, notified L. J. Horton, secretary of the Murray Chamber of Commerce, by a telegram received here today.

Since about 90 per cent of the cotton growers of Calloway county normally produce not more than two bales of cotton, the ruling is especially gratifying to farmers of this section. The Murray Chamber of Commerce has estimated that the saving will be from \$5,000 to \$7,000 for Calloway growers. The normal yield for this county is 800 to 1,200 bales, produced by perhaps 800 farmers.

The Bankhead act levies a tax of 50 per cent of the market value of cotton on all production over the national allotment of 10,983,264 bales.

Last year the Murray Chamber of Commerce, acting in conjunction with other organizations in the marginal counties of the cotton belt, vigorously protested against the operation of the tax on the small cotton growers. Tele-

grams, letters, and petitions were presented to Senator Barkley, Secretary Wallace, Mr. Cobb, and to state officials.

Mr. Barkley, in behalf of the small cotton growers, personally petitioned the cotton division for an adjustment. The Murray Chamber of Commerce also presented Calloway's claims before Mr. Horton of the tobacco division while he was in Murray, his home town.

The effect of the ruling which Secretary Wallace made last week is: Cotton growers whose "base" production has been two bales or less will be allotted that amount of tax-free cotton in 1935.

In other words if Farmer A has produced, say 1 1/2 bales of tax-free cotton during the "base" period, he will be allowed 1 1/2 bales of tax-free cotton in 1935.

Mr. Cobb's telegram to the Murray Chamber of Commerce follows: "Regulations governing Bankhead procedure for 1935 provide that an allotment equal to the established base production be allotted to each farm for which such production is two bales or less."
